"You don't have to compromise when choosing natural products," says owner Anne Sanford, whose new Sag Harbor shop emphasizes the green lifestyle. "All of the efficacy, sophistication, and luxury are available." Brands including Suntegrity, Marie Veronique Organics, and Ursa Major can be found alongside Lurk's own fragrances, which are made using pure essential oils in a base of organic jojoba. One standout is BS 003, a blend of dry woods, crisp citrus notes, and sweet bergamot.
